Program Design and Evaluation

socialimpactadvisors

 @SocImpactAdv

TAF project objectives

Participants are able to:

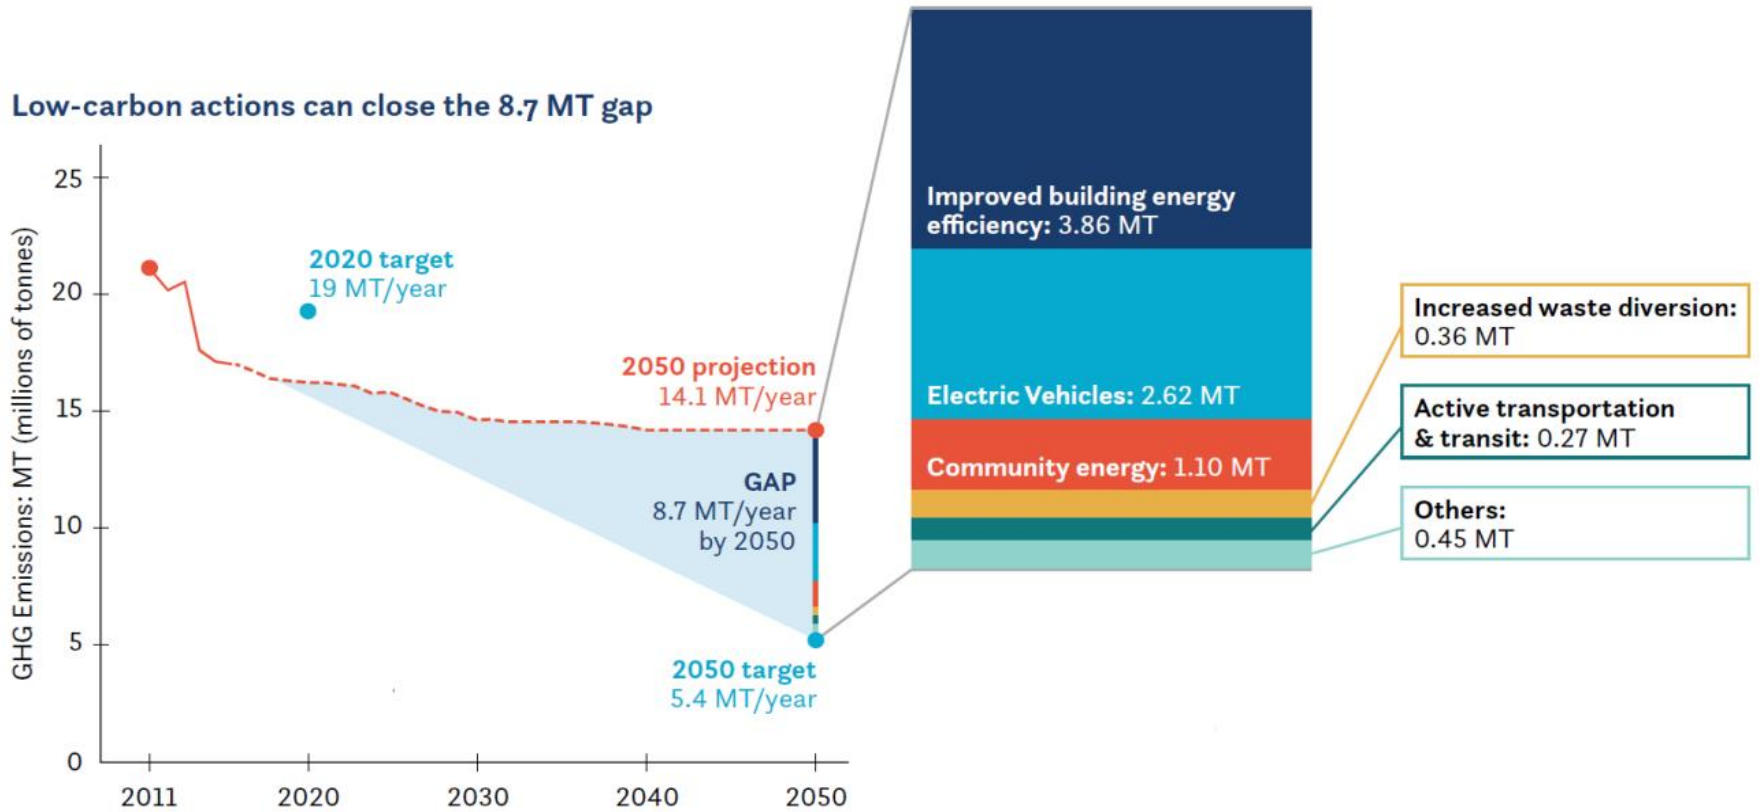

- Articulate desired program outcomes
- Effectively link program activities to desired outcomes
- Link desired outcomes to appropriate evaluation measures
- Outline a program evaluation plan
- Modify the program and/or the evaluation approach based on the outcomes of the evaluation

Leading to:

- Increasing capacity for community organizations/practitioners to deliver better projects in future
- Insights into how TAF might improve and expand its capacity building offerings for community practitioners

TAF Outcomes and Emissions Reductions Goals

Underpinning the thematic focus of TAF's strategic directions:

- driving deep energy retrofits,
- moving towards near-zero new buildings, and
- accelerating the uptake of electric mobility.
